The D C Mysore Dist with his letter No
D3-C10/46-47 dated 28 8 46, Submitted an
estimate for Rs 2,51,000/- for the scheme for
improvement of water supply to Nanjangud town
The estimate is scrutinised and ~~passed~~ stated to be in order
by the Chief Engr for Irrigation

WD 06814—GPB—15,000—20 7 46

Nayamgad water Supply

13 The D C states that the population of the town is nearly 15,000 and the present water supply by pumping water from the Kapim river is inadequate to meet the requirements of both the town and the extension

14 The ml council, in its meeting held on 11 8 46, accepted the scheme proposed by the Supdt Vasco Vilas Water Works, Mysore, to provide efficient and adequate water supply to the Town

15 The scheme involves the purchase of necessary machinery and their installation

16 ~~On the alternative~~ The ml council requests govt to bear the entire cost. On the alternative, they suggest that ~~the~~ Govt may meet the cost by 50% and the other half ~~being~~ granted as a loan to the mly repayable in 25 annual instalments

17 In case the loan is sanctioned, during this year alone, the ml cl proposes to pay the first instalment of the loan and of the closing balance of the mly for the current year

18 For the future payments of the instalments, the ml council, proposes to earmark the income ~~cost~~ of the pilgrim tax, to be sanctioned by Govt

19 In the circumstances, ports for orders are Sanction to the estimate for Rs 2,51,000/- for the scheme for Improvement of water Supply to Nayamgad Town

20 Sanction to the request of the ml council to meet the cost of the works by ml council and Govt in equal proportions

Letter No D3 C 1604/47-48 Dt 14-11-47 from the Deputy Commissioner, Mysore Dt, requesting early orders in regard to the Grant of a loan of Rs 1,50,000 to the Nanjangud Town Municipality for improving the water Supply

2/81 v 2565

Water Supply to Nanjangud Town

to the town

57) Sri [illegible] Mr I [illegible] Mysore DC, states that the Nanjangud town mcp is in a position to repay the loan, if granted, in 20 instalments of Rs 7500 each plus interest

Files 20/11 pending

57) The estimate for the improvement of water supply to the Nanjangud town mcp is for Rs 2,50,000 This estimate was scrutinised by the Chief Engineer for Roads & Buildings & is stated to be in order The estimate may be approved

58) The cost is proposed to be met by the govt & the mcp in equal proportions This proposal may be approved.

The govt share of the cost amounting to Rs 125,000/- may be met out of the water supply grant in the State Budget and in within a period of 3 years,

work being spread over a three year period. It will not be possible to complete the work in less than three years. having regard to the delivery of materials such as cement, steel & other essential articles. Work in the cities of one lakh of rupees might be effected to be done in any one year. If this proposal is accepted, then the first share of the cost would amount to Rs 40,000 per annum. This can be met out of the water supply grants for the next three years, commencing from 1943-44.

53) The balance of the amount of Rs 1,25,000 will have to be met by the Municipality. In order to enable the Municipality to meet the same, a loan of Rs 1,25,000 might be advanced to it, repayable in 20 years and carrying interest at 4% p.a. The Director might be pointed out the sources for meeting the loan instalments. He considers that the Municipality can easily discharge

C/ the loan if sanctioned. We
D: C's recommendation may be
accepted in this behalf

54) Nanyang is an important
plywood centre in the State and
devotees come thereto from various
parts of India. It is necessary
to give adequate water supply not
only to the inhabitants but also to
the visitors who resort to the place.
Hence the proposal to augment the
water supply at Nanyang may be sanctioned

55) This is a council matter
56) The financial secretary also may
be consulted in regard to the grant
of the loan of Rs 125,000 as
asked. [illegible] suggested
the grant of a loan of Rs 1,50,000 this is
based on the ultimate cost of the
scheme. But this future need not
be accepted now as it is not
according to the estimate submitted

Rec'd [illegible] 26/11/42

Final note by the Minister for Local Self Government

Subject — Scheme for the improvement of Water-supply to Nanjangud Town

Nan angud Town is being supplied with water by means of pumping from the river Kapini As the reservoir is located in a low place, it is unable to meet the requirements of both the town and its extension to the west of the Railway line To supplement the supply of water to the town a booster pump was installed in the year 1931 Even with the addition of this, the supply of water to the town has been found to be inadequate

Nanjangud is a place of pilgrimage and a large number of devotees visit the town all round the year

With a view to making water available in sufficient quantities to the residents of the town and the extension and also the people visiting the place, the Deputy Commissioner Mysore District, has in consultation with the Superintendent Vani Vilas Water Works Mysore and the Town Municipal Council Nanjangud submitted an estimate for Rs. 2,51,000/- for effecting improvements to the existing water supply The Chief Engineer for Irrigation to whom the estimate in question was referred has certified that the estimate is all right The expenditure in this behalf is proposed to be met by the Government and the Nanjangud Town Municipal Council in equal proportions The work will be spread over for a period of three years, having regard to the dearth of cement and other materials required for the work The Municipal Council have asked for a loan of Rs 1,25,500/- to meet their share of the cost repayable in 20 instalments and carrying interest at 4% They have proposed to improve the income of the Municipality by levying (1) Octroi on additional articles (2) Amusements Tax (3) Market Fees (4) Duty on transfer of immovable properties and (5) by raising the shop tax and to ear mark the anticipated realizations towards

(F N --contn)

the repayment of the loan Sanction has already been accorded in regard to item Nos 1, 2 and 4 above The others are under the consideration of Government The scheme is proposed to be sanctioned, the cost being met by the Government and the Municipality in equal proportions

The Government share of the cost will be met from out of the water supply grants in the State Budget and paid over a period of three years In this view the Government share of the cost would come up to Rs.42,000/- per annum which could be met out of the water supply grants for the three years commencing from 1947-48 A loan of Rs.1 25 500/- will be granted to the Municipality the same being made repayable in 20 annual instalments carrying interest at 4%

The matter was considered at a meeting of the Council of Ministers held on 4th February 1948 and the Council resolved to sanction the scheme half the estimated cost being given as grant and the other half as a loan by the Government

I solicit the gracious sanction of His Highness to the resolution of the Council

) Submitted

It is seen from the papers obtained from the office of the Chief Engineer at Tuticorin that an estimate for the above work has been prepared by the superintendent Madurai as water works, Tuticorin, the cost of the estimate is Rs 2,51,000 at present for increasing the pumping capacity augmenting the present battery of filters & settling tanks, laying a new rising main of a higher capacity from the pumphouse to the High level reservoir proposed to be constructed and remodelling the existing distribution system

Representation 15

It is not clear from the information available whether the Estimate for Rs 2,51,000 contains provision for the High Level Reservoir or not. Most probably it may contain, as a detailed estimate is reported to have been prepared to improve the water supply at Nanganur.

****

In resubmitting herewith your memo No A 699 dated 29-4-46, regarding the above, I have the honour to report as follows -

The mere construction of a High Level Tank at Nanjangud will not serve any useful purpose in the absence of adequate arrangements for filling up this reservoir and drawing water from there to the Distribution system

The existing pumping units and distribution system are not sufficient to enable a High Level Reservoir to be utilised It is therefore necessary to

1) Increase the pumping capacity

2) Augment the present battery of Filters and Settling Tanks

3) Lay a new rising main of higher capacity from the pump house to the High Level Reservoir proposed to be constructed and

4) suitably remodel the existing distribution system to enable the high level reservoir being utilised to the best advantage

A comprehensive Improvement Scheme embracing all the above items and costing Rs 2,51,000/- is submitted separately for further action

As regards the financing of the schemes, the Municipal Council, Nanjangud, will have to be consulted about how they propose to meet the cost

Dr. N.K. Narikempiah -
(Nanjangud - Urban)

NOTE.

The question of constructing a High level Reservoir at Nanjangud Town, is being investigated. The Scheme necessitates increasing the pumping capacity and increasing the number of filters. A large sized main has to be laid and the present distribution system has also to be remodelled. The entire scheme is roughly estimated to cost about Rs 8½ Lakhs. The question of providing funds can be considered after the project which is under scrutiny in the Sanitary Engineer's Office is sanctioned.

Note for Council

Subject:- Scheme for the Improvement of Water Supply to Nanjangud Town.

Nanjangud Town is being supplied with water by means of Tapping from the River Kapini. As the reservoir is located in a low place, it is unable to meet the requirements of both the town and its extension to the West of the Railway Line. To supplement the supply of water to the Town, a Booster Pump was installed in the year 1931. Even with the addition of this the supply of water to the Town has been found to be inadequate.

Nanjangud is a place of Pilgrimage and a large number of devotees visit the town all round the year.

With a view to making water available in sufficient quantities to the residents of the town and the extension and also the people visiting the place, the Deputy Commissioner, Mysore District, has in consultation with the Superintendent, Vani Vilas Water Works, Mysore and the Town Municipal Council, Nanjangud, submitted an estimate for Rs 2,51,000/- for effecting Improvements to the existing Water supply. The Chief Engineer for Irrigation to whom the estimate in question was referred to has certified that the estimate is all right. The expenditure in this behalf has been proposed to be met by the Government and the Nanjangud Town Municipal Council in equal proportions. The work will be spread over a period of three years, having regard to the dearth of cement and other materials required for the work. The Municipal Council has asked for a loan of Rs 1,25,500/- to meet their share of the cost, repayable in 20 instalments and carrying interest at 4%. They have proposed to improve the income of the Municipality by levying (1) Octroi on additional articles (2) Advancement

(3) Market Fees (4) Duty on transfer of immovable properties and (5) Pilgrim Tax and by raising the shop tax and to earmark the same towards the repayment of the loan. xxxxxxxxx Sanction has already been accorded in regard to item Nos. (1), (2) and (4) above. The others are under the consideration of Government. The Government share of the cost will be met from out of the Water Supply Grants in the State Budget and paid over a period of 3 years. In this view, the Government share of the cost would come up to Rs 42,000 per annum which could be met out of the water supply grants for the next three years commencing from 1947-48. The Financial Secretary who was consulted in the matter is also agreeable to the above proposal. The Minister for Local Self Government is in favour of the proposal being sanctioned.

When the file was submitted to the Dewan he has ordered that the question might be considered at a Meeting of the Council.

This note is accordingly circulated to the Ministers.

Revenue Secretary to Government.

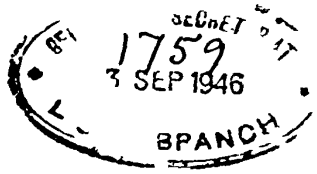
Office of the Deputy Commissioner
Mysore District
Mysore Dated the 28th August 1946

From

M H Ranajodha Singh, Esq , B A ,
Deputy Commissioner,
Mysore District, Mysore



To

J B Mallaradhya, Esq , M A ,
Secretary to Government of Mysore,
Revenue Department, Bangalore

Sir,

Subject - Scheme for Improvement of Water Supply to Nanjangud Town

I have the honour to forward herewith a report No H C 148 dated the 13th August 1946 received from the President, Town Municipal Council, Nanjangud together with an estimate amounting to Rs 2,51,000 for the above work and a copy of the Council resolution dated 11-8-1946 and to state as follows -

Nanjangud is at present supplied with water by a scheme of pumping from the river Kapini, with a battery of pressure filters and a five inch steel running main which discharges water into the masonary reservoir constructed above the ground level by the side of Electrical Colony in Srikantapuri Extension The present reservoir is in a low place and so it is unable to meet the requirements of both the town and the Extension to the west of the Railway line To supplement the supply of water to the town, a booster pump was installed in the year 1931 Even with this addition the water supply to the town has been inadequate

Nanjangud is a growing town, and is, besides, a pilgrim centre It is increasing in importance also owing to its situation and its industrial and Railway extension schemes Its population is nearly 15,000, excluding the large floating population The need for an adequate supply of drinking water to the inhabitants is keenly felt and is therefore an urgent necessity

Considering all the above facts, the Municipal Council in their special meeting held on 11th August 1946, have agreed to accept new scheme proposed by the Superintendent, Vanivilas Water Works, Mysore, which provides for an efficient and adequate supply of water to the town and a larger scale than at present

The scheme involves the purchase of certain machinery and their installation at the place. The details regarding machinery and other items connected with the scheme have been furnished in a note enclosed with the estimate

The Council are eager to take up the work immediately in the current year itself and they request that Government may be pleased to accord sanction to the proposal and to bear the entire cost of the scheme by sanctioning the sum in the shape of "Water Supply Improvement Grants" for the current year, as their finances do not admit of such heavy expenditure being incurred

In the alternative, they suggest that Government may be pleased to meet at least half the cost, the other half being granted as a loan to the Municipality repayable in 25 annual instalments

In this connection, it is urged that Government may be pleased to levy pilgrim tax in order to augment the resources of the Municipality so that they may be in a position to repay the loan proposed to be obtained in annual instalments

In case the loan is sanctioned earlier they undertake, to credit the instalment due to Government from out of the closing balance and immediately the levy of the pilgrim tax is sanctioned they would ear-mark it for the discharge of the loan

I request, in the circumstances, that sanction of Government may be kindly obtained to the resolution of the Council at an early date as the matter is of an urgent nature

Docket Abstract

Plan of a scheme for the improvement of water supply to the Nanuoya Town

Sir

With refce to the correspondence ending with your letter No Dy-C 10/46-47 dated 1-12-1946, on the above subject I am directed to state that some of the members of the Nanuoya Town Council with the non-official President of the Nanuoya Municipality waited on the Minister for Agriculture & Lands on 20-8-1947 and represented that provision of adequate water supply to the town which is growing and which is frequented by visitors and devotees is one of the major problems to be tackled and that an urgent solution of the same was essential from all points of view. I am to request you therefore, to meet the members of the Nanuoya Town Council, discuss the ways and means of meeting the portion of the cost to be met by the council and the repayment of the loan, if sanctioned by Govt, to meet their share of the cost and to submit definite proposals very early, so that this important question which has been pending long, may be settled

A report with concrete and practical suggestions may be submitted to this office within a month

NANJANGUD ~~25th April~~ 20th August 1947

THE PRESIDENT

TOWN MUNICIPAL COUNCIL NANJANGUD

The Minister to Local-Self Government
of His Highness the Maharaja of Mysore,
Bangalore

OFFICE OF THE MINISTER FOR LSG
No P819
Date 20/8/1947

SECRETARIAT 1072 22 AUG 1947 BANGALORE

We the President and the Members of the Town Municipal Council, Nanjangud, beg to represent the following for consideration and early favourable orders

Nanjangud is one of the famous pilgrimage centres in Mysore, the population of which is increasing by leaps and bounds day by day The present population is ~~somewhat~~ about 16000 Even though the Town is situated on the Banks of the river Kapila, there is a ~~wolf~~ inadequacy of protected drinking water, and numerous com- complaints from the public are being received, day in and day out, by the public of this Town The existing water supply scheme was planned out for a population of about 4000 people and the population now is nearly 16000 But, Sir, we beg to state that there is no improvement effected regarding water supply to the Town, which remains inadequate

The Sanitary Engineering Department has prepared an estimate for the essential improvements that are to be urgently effected for Rs 2,53,000/- The Estimate was placed before the council for consideration during its special meeting held on ~~28~~ 11-8-46 and it was resolved unanimously that the estimate may be countersigned and that the Government may be approached to kindly sanction moiety of the cost as water supply grants and to advance the other half as loan payable in annual instalments

We learn that the papers are pending your kind sanction

We also beg leave that the Government may be pleased to sanction the levy of Piligrim Tax on piligrims visiting Nanjangud Town, so as to improve the financial conditions of this Town

By levy of this Piligrim Tax the Municipality is assured of an annual income of Rs 15000/- at the minimum which will be earmarked for the discharge of the loan to be sanctioned by the Government for the improvement of Water Supply

We humbly request you, Sir, to kindly sanction the required loan and also pass orders for levying the piligrim tax

We beg to remain,
Sir,
Your most obedient servants,

B M S Aradhya

Sir,

Scheme for Improving water supply to Nanjangud Town.

Adverting to your letter No L 305 dated the 22nd August 1947, asking me in the above connection to meet the members of the Municipal Council, discuss ways and means of meeting the portion of cost to be met by the Council and to submit definite proposals, I have the honour to state that I met the members of the Council by appointment on 25th September, 1947, and discussed the ways and means with the members of the Council Copies of the proceedings of the meeting held together with a detailed report on the financial aspect of the proposal received from the President, as a result of through discussion are enclosed

The estimated cost of the High Level Reservoir is Rs 2,51,000/- But in finding ways and means for repayment of the loan, the ultimate cost of the Scheme has been estimated at Rs 300000/- as the rates may fluctuate and as a considerable variations may be necessary in view of the rapid growth of the town since the preparation of the estimate.

The Municipal Quota which is a moety of the cost, would be raised as a loan from Government This council propose to repay in 20 annual instalments

The ways and means of Municipality for the payments

payment of the loan are as detailed below

a)	By levy of Octroi on additional articles such as oil seeds, materials used for construction of buildings, such as Timber, Tiles etc , which are expected to bring in a Revenue of Rs 2,300/-	2,300/-
b)	Duty on transfer of properties in Nanjangud town brought into force from 1-7-1947, The Revenue Expected from this source is Rs 1,200/-	1,200/-
c)	Income from amusement tax introduced as per Government Order Rs 750/-	750/-
d)	By levy of market fees in Vegetable market ~~fxxxix~~ This is expected to bring in Rs 1500/- (proposed to be put into force from 1-1-1948) Rs 1,500/-	1,500/-
e)	Revision of Shop tax proposed to be effected from 1-7-1948. Rs,700/-	700/-
f)	Shandy income (about which orders of Government are awaited) Rs 1000/-	1,000/-
g)	Levy of Pilgrim Tax Rs 6,000/-	6,000/-
	Total. ...	13,450/- or 12,000/-

(i) Proposals regarding a and f and g have already been submitted to Government for sanction

(ii) Other sources of receipts proposed to meet the cost are:

a Sale of sites available which is expected to bring in a sum of Rs 20,000/-

b Disposal of fresh sites to be formed after acquisition of Survey Numbers 242, 313, 70 and 71 (Totaling about 15 acres in extent) This is expected to fetch another sum of Rs 20,000/-

In all about 40,000/- is expected from the sale of sites Even apart from this, the Municipality has a total sum of Rs 42,625/- to its credit in the shape of amount deposits, Investments and Advance paid to Municipal Grain Depot With the expected income from the sale of the sites already formed, these funds would go up to Rs 60,000/-

(5) Each instalment to be repaid amounts to Rs 7500/- plus interest With the expected extra net Revenue under Octroi or Rs 12,000/-, from other sources including Octroi and Pilgrim tax as stated in para 4 supra, it should be easy for the Municipality to clear the loan proposed to be raised Rs 7500/- may therefore be safely earmarked for repayment of loan even without the sale of sites being taken into consideration

(6) There remains then the question of meeting the increased charges if any, under maintenance on account of improvements carried out after the Scheme is sanctioned This can of course be met from out of Income derived from

1 Water Tax

2 Assessment on buildings which may come up in extensions after water facilities given

3 assessment on sites formed

4 Metering hotels and large users of water

(7) I request in the foregoing circumstances, that Government may kindly be moved to accord sanction to the water supply scheme already recommended and grant of a loan of Rs 1,50,000/- to the Municipal Council (or such other smaller sum necessary for financing the Scheme) to enable them to meet ½ the cost of the estimate as their quota subject to its repayment in 20 annual instalments of Rs 7500/- each plus interest as the Municipality is in a position to discharge the loan easily if granted.

Connected records with estimates and plans accompany

I have the honour to be,
Sir,
Your most obedient servant,

DEPUTY COMMISSIONER
Mysore District.

Sir,

Subject Scheme for improving water supply to Nanjangud Town

I have the honour to invite reference to this office letter No D3-C 1604/47 dated 17th October 1947 submitting a detailed report on the above subject, after discussing the matter with the members of the Municipal Council This is a question which has been long pending and the Municipal Councillors are repeatedly urging that the proposal may be got sanctioned The President is stated to have had a talk also with the Ex Minister for Local Self-Government Mr J Appaji Gowda on 18-10-1947 and pressed the matter for his kind consideration

I request you, therefore, to be so good as to place the matter before the Government for their kind and favourable consideration and communicate their orders very early I have already expressed my opinion that the Municipality is in a position to discharge the loan easily, if granted, in twenty instalments of Rs 7500/- each - plus interest

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner
Mysore District

Proceedings of the Government of His Highness the Maharaja of Mysore

Read—Correspondence ending with letter no D3 C 1604/47-48 dated the 14th Nov 1947 from the Dy Comr Mysore Dt, regarding the improvement of water-supply to Nanjangud Town Mlty

Order no L 14456 8 Town Enc Record

Nanjangud is being supplied with water by means of Pumping from the river Kapini As the reservoir is located in a low place, it is unable to meet the requirements of both the town & its extension to the west of the Railway line To supplement the supply of water to the town,

Order thereon.—~~No.~~

a booster pump was installed in the
year 1931 Even with the addition of this,
the supply of water to the town has been
found to be inadequate.
With a view to making water available
in sufficient quantities to the residents
of the town and the extension and also
the people visiting the ~~place~~ town which is
a place of pilgrimage, the Dy Commr,
Mysore Dt, has in Consultation with
the ~~Exe~~ Supdt, Vani Vilas Water Works,
Mysore, and the town mcl, Nanjangud,
submitted for sanction an estimate for Rs 2,51,000/-
for effecting improvements to the
existing water Supply. The Chief Engineer for *List of Inclosures*
Irrigation to whom the estimate
in question was referred has ~~adopted~~ certified
that the estimate is ~~all right~~ in order The expenditure
in this behalf ~~is proposed to be~~ is proposed to be met by the Govt and
the Nanjangud Town mcl in equal proportions *Copied by*
The work will be spread over for a period of three *Examined by*
years, having regard to the dearth of cement
and other materials required for the work
The Nanjangud town mcl have asked for

a loan of Rs 1,25,500/- to meet
their share of the cost of the work,
in 20 instalments and carrying
interest at 4 per cent per annum
In view of the difficulties which
are being experienced by the
people at Nanganguni, Govt
are pleased to sanction the
scheme for the improvement
of the water supply to the town at
an estimated Cost of Rs 2,50,000/-,
the same being met by the Govt
and the Mdy in equal proportion
The Govt share of the cost will
be met from out of the Provincial Trade and
Water-Supply Grants in the State
Budget for the ~~current year~~ spread
over a
period of three years at Rs
42,000/- per annum, Com-
-mencing from the year
1947-48 A loan of Rs 1,25,0
is also sanctioned to the Nanganguni Taluk
to meet their share of the C
the same being repayable
in 20 annual instalments
carrying interest at 4%

~~and the Dy Commr, Mysore DC~~ the
Chief Engineer for Irrigation
are requested to take necessary
further action to push through
the work urgently and Consultation
with the Dist Rangareddy
Town me cb -

The Dy Commr Mysore Distt is requested to see that
the required provision is made in the annual Budget estimates
